Product Description

2023 Ferris FW15 Walk Behind Mower 5901737

VARIABLE HYDROSTATIC 32" COMMERCIAL WALK BEHIND

The FW15 variable hydrostatic walk-behind provides a narrow footprint for trimming around trees and planter beds. Maneuverable and easy to operate, this unit will become a crew favorite.

Features may include:

One Hand Operation

- Comfortable, single-handed operation with adjustable speed control. The handlebars are adjustable with four positions for operator comfort.

Commercial-grade Steel Timed Mower Deck

- 32" compact fully-commercial, fabricated, reinforced, steel deck with dual timed cutting blades.

Easy Cut Height Adjustment

- Spring assisted, single adjustment point lever for easy cut height adjustment.

Caster Wheel Model Available

- The 10.5" front tires are available in a lockable, caster wheel configuration or a fixed wheel configuration.

Variable Hydrostatic Drive

- In forward and reverse, the FW15 provides smooth traction for sloping terrain and precise trimming.
