Product Description

2024 Altoz XC 610 Z GET MORE DONE IN LESS TIME. The Altoz XC is a heavy duty zero turn mower with a unique combination of a high horsepower engine, Hydro

Gear transmission, and 26" tires. Together, they embrace speed, handling, and cut quality so you can get more done in less time.

STAND OUT FROM THE CROWD Altoz zero turn mowers are purpose-built to save you time and increase your ROI. From the C-channel, laser-cut frame, to the TorqFlex™ suspension system that glides over even the toughest terrain, the Altoz XC gets you through the toughest jobs with the best results.

BE AT YOUR BEST To deliver a revolutionary mower, every component needs to perform flawlessly and exceed expectations. That's why we included professional-grade components like the SmarTrac™ Monitoring System and the AERO DECK™ CUTTING SYSTEM. Because we know nothing less than superior quality will do.

ENGINES THAT ENABLE Two engine options, all built to save you time and money. A top speed of 19 mph leaves other mowers in its wake. While heat-dissipating aluminum deck spindle housings deliver extreme strength and durability. Now you can focus on the task-at-hand, knowing you're outpacing the competition.

THIS IS WHERE YOU PICTURE YOURSELF IN THE DRIVER'S SEAT A 4-point Engine Isolation System (EIS) isolates and absorbs engine vibrations to keep you comfortable and productive all day. And a 6-point Vibration Isolation System (VIS) delivers the smoothest ride of any mower in the industry.

Features may include:

AERO DECK™ FINISH DECK

- A .315-inch laminated steel top that features recessed anti-scalp wheels and fully adjustable baffles for a professional cut.

SMARTRAC™ MONITORING SYSTEM

- Intelligent monitoring keeps you ahead of issues.

HIGH-LOW RANGE TRANSMISSION

- Transmission with high- and low-range capability with transport speeds of 19 mph to get jobs done quickly.

ERGONOMIC SEAT

- 12-way adjustable high-back suspension seat with arm rests.

TWIN FUEL TANKS

- Large capacity for extended cutting times.
