Product Description

2022 Altoz TSX Series 561 i*GOES SAFELY WHERE OTHERS CAN'T*Tackle slopes, tight spaces and any other challenging conditions you encounter. The Altoz TSX combines next-level engineering with industrial-strength design to bring you the world's first tracked stand-on mower. *INNOVATION*World's first tracked stand-on mower, the TSX offers the ability to get more done in less time with an unmatched degree of stability on slopes, maneuverability and precision. *AWARD-WINNING*The TSX 561 i received a 2021 Pro Tool Innovation Award in the Outdoor Power Equipment category. In this highly-competitive category, the TSX 561 i stood out as an innovation PTIA says, "should help contractors, tradesmen and business owners make significant productivity gains in the coming year." Green Industry Pros awarded the TSX 561 i a 2021 Editor's Choice Award for its rare mix of power, maneuverability and stability. Though audience engagement online at GreenIndustryPros.com is one way of choosing the winners, innovation and utility for the landscaping market are two other important factors in determining which products have made the biggest impact on the industry. Awarded Landscape Business Twenty for 2021 New Product Award which recognizes products for the commercial landscape and irrigation markets. The TSX 561 i was judged by the EPG Media and Specialty Information based on its innovation, marketability and application within the market. *FULL CONTROL*Power through harsh conditions and rough terrain with the TSX all-terrain track system featuring rear-mounted torsional axle suspension that delivers maximum traction, stability, and low ground pressure for minimal earth compaction. This along with the flat-free tires beneath the TorqFlex™ front suspension provides a smooth, comfortable ride. HV All-Terrain Deck Power through harsh conditions and rough terrain with the TSX all-terrain track system featuring rear-mounted torsional axle suspension that delivers maximum traction, stability, and low ground pressure for minimal earth compaction. This along with the flat-free tires beneath the TorqFlex™ front suspension provides a smooth, comfortable ride. Aero Deck™ The Aero Deck™ high-output cutting system gives the precision cut you count on. Features recessed anti-scalp wheels and fully adjustable baffles so you can get a professional-grade cut every time. *SEE IT THROUGH*An ergonomic command center atop the offset deck allows for secure comfort and clear sightlines. Plus, an easy-on, easy-off low center of gravity chassis lets operators safely reclaim steeper grades, soft spots, and technical terrain. *STAND STRONG*The TSX HV all-terrain deck is constructed of two pieces of heavy, reinforced 7-gauge laminated steel with three multi-bearing, heat-dissipating deck spindles. The sloped back rear discharge design efficiently processes a high volume of material. The industry-exclusive pivoting swing blades pivot when hitting an immovable object to protect the spindle, clutch and engine. The deck is offset for better visibility on the trim side for a closer cut around immobile objects. The Aero Deck™ high-output cutting system gives the precision cut you count on. Features recessed anti-scalp wheels and fully adjustable baffles so you can get a professional-grade cut every time. *STAND SECURE*The low center of gravity platform allows ample room for foot positioning while side-mounted foot stands provide secure footing and increased control while mowing off-camber terrain.
