CHOICE OF TRANSMISSION

Categories:[Compact](#)

Product Description

- You can choose between two transmission options, an 8 x 8 synchro shuttle or hydrostatic. The 8 x 8 synchro shuttle is better suited for heavy ground-engaging work, while the hydrostatic transmission is better for back-and-forth loader work.

POWER WHERE YOU NEED IT

Hydro Transmission 2022 Massey Ferguson MF 1800 E Series MF 1835 E **DEPENDABLE. VERSATILE. PRACTICAL. JUST LIKE YOU.**

• The MF 1800 E is designed to put power in the tightest areas around your operation. It's perfect for maneuvering in and around small buildings or busy yards, wherever you need a little extra muscle. **Simple, no-nonsense design that won't sacrifice performance.** It's your land, your little plot of heaven. You worked hard for it, and you fully expect to work hard on it. Now, all you need is the right tractor. The Massey Ferguson® 1800 E compact tractor fits the bill. Economical and versatile, it's the perfect partner for virtually any chore or project.

MASTER YOUR TASKS

Key Benefits • Whether you're spraying on the fence line, scraping the driveway or clearing trails, the MF 1800 E has the power to get the job done.

Dependable and Practical Our MF 1800 E Series tractors are practical and hard-working, just like you. They're get-it-done overachievers that can go toe-to-toe with any other brand in the compact class.

Rugged and Sturdy The MF 1800 E Series has gained a reputation for tackling jobs that would overwhelm lesser-built compacts. They're built with a rugged cast rear-end, a solid cast front axle and a robust rear three-point hitch.

Performance where it counts These tractors use the same dependable, fuel-efficient Iseki engines that you'll find in our premium compacts and a broad range of ag and construction equipment working in some of the harshest conditions on earth.

Features may include:

THREE-CYLINDER 1.5L ISEKI® ENGINE

- The MF 1800 E tractor is powered by a 1.5L, 3-cylinder, liquid-cooled Iseki diesel engine. It delivers 24 HP with a rated engine speed of up to 2,600 RPM.

POWER LIFT

- A three-point lift capacity of 2,205 lbs. gives you the ability to move heavy loads with confidence.

ALL-STEEL HOOD

- All-steel hood construction gives your MF 1800 E additional durability and longer service life.

EASY-TO-REACH CONTROLS

- The operator station puts all controls within easy reach, so long work days don't take a toll.

RUGGED COMPONENTS

- Operator components, like the pedals and steering, are built to withstand repeated use and all the dirt and grime the day can dish out.

GROUND-LEVEL FUEL FILL

- Ground-level fueling makes it easier to fill up and go. No more lifting five-gallon cans over your head.
