

## REAR PTO SWITCH

- A rear-mounted stationary PTO switch makes it easy to engage and disengage the PTO from the rear of the tractor — a very handy feature when you're using an auger, wood splitter or generator.

## TIRE OPTIONS

- Choose the tire tread and size that are right for your jobs and performance needs: ag, turf, industrial and snow.

## QUICK-ATTACH LOADER

- Removing your loader is a cinch with the M Series Quick-Attach loader feature.

## SHUTTLE-SHIFT LEVER

### Product Description

A handy shuttle-shift lever on the steering column lets you change direction fast and easy — ideal for loader work.

## AUTO-THROTTLE

## 3 WAYS TO BUY

Efficiency gets a boost with the auto-throttle feature standard on the hydrostatic transmission. It automatically raises engine speed to match ground speed — giving you the power you need to keep pace.

**Option 1** - Haney Equipment's Exclusive **POWER UP REBATE** with 10 Year Financing!, **Option 2** - 0% for 60 / 1.29% for 60 months! or **Option 3** - Free Loader with Cash or Standard Rate!

## CRUISE CONTROL

Massey Ferguson MF1800 M Series MF1835M Premium Machines for those who demand more — just engage and go. Pressing the brake pedal or the forward pedal disengages the system.

**MF 1800 M Series Premium Compact Tractors** Getting more out of your tractor is the name of the game. You want on-demand four-wheel drive. More time-saving features. More versatility. You want a premium ownership experience, and that's what the Massey Ferguson® 1800 M Series gives you.

- Get extra traction for tough jobs and difficult conditions with on-demand four-wheel drive. Just push the lever

Massey Ferguson 1800 M Series tractors are designed with power users in mind, like contractors, growers and commercial operators. They come with features that enhance convenience and ease of operation to save you time and give you the versatility you need to handle any task your day serves up.

## Key Benefits

**Choice of Open Station or Cab** Open station models are designed with a wide, flat, unobstructed platform, while cab models offer exceptional visibility and quiet, climate-controlled comfort.

**Turbocharged Diesel Power** At the heart of every MF 1800 M Series tractor is a 1.83-liter 3-cylinder Iseki diesel engine. These engines are turbocharged for extra power, are liquid-cooled and offer direct fuel injection for high efficiency and exceptional fuel economy. They also provide the torque reserve that lets you lug down without stalling — and keep pace when the going gets tough.

## Features may include:

## MORE POWER TO THE GROUND

- With a solid cast rear-end and front axle, the MF M Series offers plenty of weight for tackling heavy-duty jobs, giving you more stability on uneven ground and boosting performance with heavier implements and attachments.

## SMOOTH PTO ACTION

- A standard 540 RPM rear PTO is electrohydraulically controlled for smooth, chatter-free actuation. The smooth SoftStart modulation reduces abrupt jolts, lessens wear and tear, and reduces the chance of downtime.

## SIMPLE IMPLEMENT HOOKUP

- A standard rear 3-point Cat I or I/II hitch offers generous lift capacities and easy implement hookups.

## EASY ACCESS TO FUEL AND MAINTENANCE

- Service points are all easily accessible from ground level. Fuel fill-ups are convenient thanks to the ground-accessible fuel-tank filler.
