Product Description

2023 IKON Boats LX21**BECOME A LEGEND**Features may include:

- Clean Power
- World-Class Helm

Industry Firsts

- First boat that can handle hard turns and rough waters without disruption to speed.
- Fast getting up on pad with practically no bow tipping.
- Double the amount of storage with our vertical iT stringer (50 plano's and 2-3X the rods).
- Largest fishing deck in the market.
- Larger machine rooms that can fit 6 batteries, with ample space remaining.
- Affordable 6-spring suspension system.
- Cool breathing materials that accommodate any colors.
- Automated controls with strategic contingency switches for quick access while fishing.
- Single push button that doesn't require getting in the back of the boat to turn on the trolling motor.
- L2 livewell that controls everything, including temperature and fish IV additives.
- CLEAN POWER front to back with our yacht plug and play harnesses and a dedicated NMEA box.
- Largest and insulated cooler (a case of water with a backup cooler and Yeti-like cold).
- Six USB ports for camera support spread throughout the boat.
- Waterproof hatches with our new yacht gutter system.
- Quick connect fill for weigh in bag that doesn't require getting out of the boat.
- One-piece glovebox with access to the electronics, and underside access throughout all tubs.
- Anti-puddling mooring cover with helm and gas can quick access Easy enter safety pole and steps on trailer.
- Fiberglass seatback for customization flavor.
- Finished gel coat liners.
- Sensor controlled runway lights straight from the factory.
